

Collectively, we bear responsibility to the Creator for safeguarding the perpetuation of lasting tranquility.

NOTE: The elements should assume each one its color or look, for instance, the dark sides of the image above should be filled with the different elements which I will be sending your way too to be used, and white areas of the image of the pointed area, will assume a lighter version of the dark side element used. The rainbow will come over the compass. And above the rainbow, the writing: GOD IS COMING OUT BIG IN HIS WORLD, will be designed to assume the shape of the rainbow and I will also send you the font to use for that writing. These are the numbering of the elements that will fill the dark and light areas: 1) Earth, 2) sun, 3) moon, 4) fire. I will send to you images too. The slogan above under the image, should look like it is sort of wrapping around the image, but not really. I will send you also send you font for slogan. This is the idea and blessed be you to help bring it to life. Thank you my friend and I will talk to you later.
